DEADLINE AUGUST 24 2015

Notification of incompatibilities and anomalies

It is possible to address to the Rector notifications of incompatibilities and anomalies through the Comparative Overall Evaluations which will be evaluated by a specific commission appointed by the Rector.

Participation in the Commission

The member of the Commission are obliged to participate in the work of the Commission, except justified and documented cases and circumstances beyond control.

If the members of the commission do not participate in the Commission, once the Rector verified it, the Commission itself is dissolved.

If a member of the Commission refuses the appointment or resigns for sudden difficulties, these cases must be properly motivated and documented and they are put into effect only after an acceptance decree by the Rector.

Evaluation Committee: Closing phase

The Evaluation Committee must complete all the procedures within three months since the date of publication of the Appointment Rector's decree. The Rector can postpone the deadline of the end of the procedure only one time and not for more than a month, due to exceptional and proved reasons, indicated by the Chair of the Evaluation Committee. If the closing phase of the procedure is not completed after the postponement, the Rector starts the procedure to substitute the members of the Evaluation Committee, to whom it is possible to ascribe a delay in the procedure, through a justified provision. Then, the Rector establishes a new deadline for the end of the procedure.

**Art. 9
Selection procedure**

The selection procedure will be based on the following steps:

- a) definition of the evaluation criteria, according to what it is include in art.10 and 11;
- b) individual and joint judgments expressed by the Evaluation Committee on the overall CV, on the publications and of the documents included in sections 2-5 of the CV, organized in the following five Academic field, according to the rules included in the art.10:
 1. Scientific Activity;
 2. Coordination of research and technical transfer groups and projects;
 3. National and international reputation and supporting activity for the scientific community;
 4. Teaching activity;
 5. Institutional offices and roles at Italian and Foreign universities and/or public and private institutions with scientific and/or technological transfer aims ;
- c) pre-selection of the candidates to be admitted in the participation in a seminar open to faculties members, on the basis of the criteria and judgments expressed. The number of the admitted candidates must not be higher than 20 % (rounded up) of the total of the candidates and not lower than 6, for each position assigned (see article n.12); candidates who have not been admitted will be informed by a specific communication.
- d) participation in a seminar open to faculties members, according to the rules included in article 13; the seminar will take place partly in English in order to check the candidate proficiency in English. The seminar may take place completely in English, if it is required by the candidate.
- e) individual and joint judgments expressed by the Evaluation Committee on the seminar, according to article n.13. The candidates who have been subject to a positive overall evaluation on the seminar are admitted to the following phase of the procedure;
- f) editing of a final joint report, including a well-structured comparison among the admitted candidates, in relation with their scientific expertise and their overall qualification in order to cover a position for Associate Professor. The report must be coherent with the individual and joint judgments expressed on the five Academic field above mentioned, according to point b) with the individual and joint judgments

DEADLINE AUGUST 24 2015

expressed on the seminar open to faculties members, according to point e). The report must be entirely approved with the majority expressed by the members of the Committee.

- g) identification of the most qualified candidates, on the basis of the report mentioned in point f) with the majority expressed by the members of the Committee.

Art. 10

Definition of evaluation criteria and expression of individual and joint judgements on the overall Cv, publications and documents include in sections 2-5 of the Cv

The Judging Commission assesses the Cv, publications and the elements included in sections 2-5, with particular reference to the following five Academic fields:

1. Scientific Activity;
2. Coordination of research and technical transfer groups and projects;
3. National and international reputation and supporting activity for the scientific community;
4. Teaching activity;
5. Institutional offices and roles at Italian and Foreign universities and/or public and private institutions with scientific and/or technological transfer aims.

When the criteria are defined, the Commission ascribes to each Academic field a percentage value, according to the following rules:

- the percentage value ascribed to the scientific activity must be higher than the value ascribed to each of the Academic field 2-5;
- the percentage value ascribed to each Academic field cannot be lower/inferior than 10%;
- the sum of the percentage values ascribed to the fields numbered from 2 to 5 must be at least 50%.

1. Scientific activity

With reference with the Cv scheme to be used by the candidates in order to submit their own Cv, the Commission expresses its own evaluation on each of the following aspects, numbered 1.1 – 1.3 as follows. While defining the evaluation criteria, the Commission can decide whether to ascribe different values to points 1.1 – 1.3, with the only limit that the value ascribed to point 1.1 must prevail on the others.

1.1 The three main outcomes/results of the research activity, included in the section n. of the CV. The Commission is required to explicitly express about the existence of the tangible and verifiable evidence that the presented results:

- are original, significant and are due to the determining, prevailing and clearly recognizable contribution of the candidate;
- have widely spread and obtained outstanding recognitions by the international scientific community;
- qualify the candidate as a distinguished international expert in his/her field.

1.2 Submitted documents included in 2-5 sections (not more than 20).

The Commission examines the publications or the texts accepted for the publication according the Italian law in force, as well as essays included in colectanea and articles edited on paper or digital journals. Internal documents (without DOI or ISBN code) or department reports are not considered as publications.

The evaluation of the submitted documents is done on the basis of the following criteria, of whom priority is defined by the Commission:

- a) Coherence with the topics related to the concerned Academic field or the Academic discipline, if they are specified or with related interdisciplinary topics. For those candidates who hold the Italian scientific qualification in the same Academic field, if in the notice only the Academic field is specified, the disciplinary relationship with the topics related to the concerned Academic field is taken for granted and will be not object of evaluation by the Commission. If the in the notice more than one Academic discipline is specified, the disciplinary relationship will be object of evaluation by the Commission.
- b) analytical definition, also on the basis of criteria which are recognized by the concerned scientific community, on the individual contribution of the candidate, if he/she participated in collaboration works/projects;
- c) quality in scientific production, assessed within the international research scenario, on the basis of the originality, of methodological rigor, of the innovative character, also based on the merit rankings of the publications in accordance to annex D of the Italian decree n. 76 of June 7 2012 (and possible subsequent changes), according to the criteria included in point 1.3;
- d) editorial distribution of the scientific works in editors, book series or journals of national and international importance, which employ transparent procedures for the evaluation of the quality of the work to be published, according to peer-review systems.

The Commission may define other justified and grounded criteria within the scientific community in relation with the specificity of the Academic field and of the Academic discipline,, which are object of the selection, where it is specified.

1.3 Overall Scientific production

The Commission examines the publications or the texts accepted for the publication according the Italian law in force, as well as essays inserted in colectanea and articles edited on paper or digital journals. Internal documents (without DOI or ISBN code) or department reports are not considered as publications.

The evaluation of the overall scientific production is done on the basis of the following criteria:

- a) Number and typology of the submitted publications and their distribution in terms of time/time distribution , with particular reference to the following five years which are prior/previous to the date of publication of the concerned notice of competition; with this aim, periods of maternity leave or of other types of leave form work different from study leaves are to be taken into consideration, according to the Italian law in force;
- b) impact of the submitted publications within the concerned Academic field; with this aim, the Commission should consider the academic age of the candidate and, if necessary, the specific features of a part of an Academic field and/or of an Academic discipline; if in this selection procedure only the Academic Field is specified, for those candidates who have obtained the National Scientific Qualification in the same Academic Field, the disciplinary relation with the subjects of the Academic Field are taken for granted and is not subject of the evaluation by the Committee. If in this selection procedure more than one Academic Field is specified, the relation with the subjects of the Academic Field is subject to the evaluation by the Committee.

-
- c) impact of the overall scientific production, assessed through the criteria included in the article 6 of the Italian Ministerial Decree n. 76 of June 7 2012 (and possible subsequent changes) and in the related annexes A and B;
- d) for the evaluation of the scientific production of the candidates, the Commission exploits the following quantitative indicators, calculated at the deadline of the notice of competition, for those Academic fields in which they are significant;
- the number of articles on journals included in the main international databases and the number of articles normalized with respect to the academic age, by adopting the normalization criteria defined by ANVUR (National Agency for the Evaluation of the University and Research) for the National Scientific Qualification (ANVUR resolution no. 50 of June 21 2012);
 - the total number of citations of his/her own works, referring to his/her own overall scientific production and the total number of citation, normalized with respect to the academic age, by adopting the normalization criteria defined by ANVUR (National Agency for the Evaluation of the University and Research) for the National Scientific Qualification (ANVUR resolution no. 50 of June 21 2012);
 - the overall Hirsch index, H-index, and the contemporary H-index; the calculation is obtained through the procedure defined by the ANVUR, for the National Scientific Qualification (ANVUR resolution no. 50 of June 21 2012).

For those Academic Fields where the criteria and indicators reported at points c) and d) do not apply, the Commission may exploit criteria and indicators assessed by the national scientific community for the Academic field or for a subset of it.

2. *Coordination of research and technical transfer groups and projects.*

- Coordination and management of the research groups, possibly with international relationships and collaborations; explicit mention of the number and of the type of PhD and Post-Doc students of whom the candidate has been the academic supervisor.
- Scientific responsibility (Principal investigator) of Italian and International research projects, awarded through a peer-review process.
- Scientific responsibility of Italian and International research projects, ruled through partnership agreements with companies and/or public private bodies which are leaders in their own sector.
- Outcomes obtained in the technology transfer Academic field, in terms of participation in start-ups and spin-offs, development, use and commercialization of patents/licenses.

The evaluation of the elements included in sections 2-5 is done by considering specifically the importance that they take on, on the basis of the quality and the quantity of the research activity developed by each candidate.

3. *National and international Reputation and supporting activity for the scientific community*

- Editorship of Journals with international reputation (in the role of Editor in Chief – EIC), editorship of book series, encyclopedias and essays of recognized prestige.
- Participation in the Editorial Board of Journals with international reputation (in the role of Associate Editor or equivalent), participation in the Editorial Board of book series, encyclopedias and essays of recognized prestige.
- Direction of highly qualified international institutions or research centres.
- Official research and/or teaching and/or fellowship roles, positions as Scholar/ Visiting Professor in international highly qualified universities and research centres.

-
- Offices in the Governing bodies of national and international scientific societies.
 - Participation in Academies with international reputation in the research field of the candidate.
 - Prizes and awards awarded to the candidate for his/her scientific activity and project activity in the Academic Fields (*"Settori Concorsuali"*), where this is appropriate.
 - Participation in international conferences, as a distinguished invited speaker; participation in the scientific committees of International Conferences.
 - Management and organisation of exhibitions, compositions, drawings, design, hand-crafted items, prototypes, artwork and their projects, databases and software, thematic maps, for the Academic Fields (*"Settori Concorsuali"*), where this is appropriate.

If the candidate has obtained the National Scientific Qualification for Associate Professors (*"Abilitazione Scientifica Nazionale-II fascia"*) in more than one Academic fields (*Settore Concorsuale*), as well as the National Scientific Qualification for Permanent Professors (*"Abilitazione Scientifica Nazionale-I fascia"*) in the Academic Field concerned by the Selection procedure and/or in the Academic Fields of the same Academic discipline, this must be considered a qualifying element for properly evaluating the scientific reputation of the candidate. In particular, the term Academic discipline included the areas 1-4 defined by CUN (Italian University Council).

The evaluation of the elements included in sections 2-5 is done by considering specifically the importance that they assume, on the basis of the quality and the quantity of the research activity developed by each candidate.

4. Teaching activity

The evaluation procedure is done on the basis of the following elements to which the Commission can decide whether to ascribe different priorities or not, while defining the evaluation criteria:

- Formal responsibility of Bachelor's (Laurea) and Master of Science's (Laurea Magistrale) degree courses in Italian and/or foreign universities.
- Formal responsibility of PhD courses in Italian and/or foreign universities.
- Formal responsibility of Specializing Master's courses and Life Learning courses in Italian and/or foreign universities in PhD courses.

If in the notice only the Academic field (*Settore Concorsuale*) is specified, the disciplinary significance and relevance of the teaching activity is not object of evaluation, for those candidates who hold the Italian scientific qualification in that field. In this case the Commission is only asked to evaluate the overall teaching experience acquired by the candidate.

If in the notice, **Academic disciplines (*Settori Scientifici disciplinari*)** are specified, the disciplinary significance and relevance of the teaching activity developed by the candidate may be evaluated by the Commission.

5. Institutional offices and roles in Italian and foreign Universities and/or public and private institutions with scientific and/or technology transfer aims

- Institutional offices and roles in the Governing bodies (Academic Senate, Board of Governors) of Italian and/or foreign universities.
- Institutional offices and roles in teaching and research structures (Departments, Faculties, Schools, Colleges) and other service activities developed in Italian and Foreign Universities.

-
- Management roles in Universities, as part of Faculty duties.
 - Offices in the Governing bodies, Board of Governors, Scientific Advisory Boards of public and private institutions, with scientific and technology transfer aims.

Art. 11

Definition and publicity of the evaluation criteria

The criteria and indicators for the evaluation, according to the rules included in the article n. 10, must be defined by the Commission during a preliminary session and submitted (by hand) to the person responsible for the procedure, who is in charge and assure the publicity in the Official Register, on Polito website, at least seven days before the progression of the procedure.

Art. 12

Pre-selection of the candidates to be admitted in the participation in the seminar open to faculties members

The Commission, on the basis of the defined criteria and of the individual and joint judgments expressed, in accordance with article n.9 b), after gathering the international referees' opinions, selects the candidates to be admitted in the participation in the seminar open to faculties members for a number which must not be higher than 20 % (rounded up) of the total of the candidates and not lower than 6, for each position assigned.

Art. 13

The seminar will take place partly in English in order to check the candidate proficiency in English. The seminar may take place completely in English, if it is required by the candidate.

At the end of the seminar, a public session starts, according to the procedure defined by the Chair of the Evaluation Committee. During this session, the Evaluation Committee members and the Full Professors of Politecnico who will have taken part in the seminar, may ask questions and/or make comments, to which the candidate will have the opportunity to reply.

At the end of all seminars, the members of the Evaluation Committee express for each candidate and individual and joint judgment in relation to the following criteria:

- To the contents and clearness of the candidate's presentation
- To the ability to reply properly to the observations and to the questions asked during the subsequent discussion

In relation to the expressed individual and joint judgments, an overall evaluation on the seminar is expressed by the majority of the members of the Committee (positive/non positive); if the evaluation is positive, the candidate is admitted to the following phase of the procedure; if the evaluation is not positive the candidate is not admitted to the following phase of the procedure.

Art. 14

Drafting of the final joint report

After having expressed its own individual and joint judgments on the seminar, the Commission drafts a final joint report, including a well-structured comparison among the candidates, in relation with their scientific expertise and their overall qualification in order to cover a position for Associate Professor. The report must be strictly coherent with the individual and joint judgments expressed on the five Academic field, in accordance with the point 9 b), according to the rules included in the article 10, with the individual and joint judgments expressed on the seminar open to faculties members, according to point 9 e), according to the rules included in the article 13 . The report must be entirely approved by the majority of the members of the Committee.

Art. 15

Identification of most qualified candidate/candidates

At the end of the procedure, the Evaluation Committee, on the basis of the report, according to article n.14, with the majority of the members, identifies the most qualified candidate/s for Associate Professor, in accordance with art. 18, paragraphs 1 and 4 of the Italian law 240/2010.

At the end of the procedure, the Commission gives the related acts by hand to the Rector.

For each meeting of the Commission a specific document including the minutes must be signed by all the members of the Commission with the related attachments. These documents are composed of the minutes of the single meetings, of the attachments, of the individual and joint judgments expressed on each candidate.

Art. 16

Verification of regularity of acts

In accordance to art. 8 paragraphs 4 and 5 of the Presidential Decree. n. 250/2015 and subsequent changes, the Rector verifies the regularity of the acts within 30 days from the submission of the documents by the Commission.

If the verification is positive, the Rector approves the Commission acts through his decree where he declares the name of the selected applicant/candidates.

If after the verification, faults are identified, in case they can be rectified, the Rector resend the acts to the Commission by his decree and indicate a deadline for their regularization.

If the observed faults cannot be rectified, the Rector does not approve the commission acts and appoints a new Commission by his decree.

If after the verification, faults referring to obvious falseness, discrepancy and illogicality in the Commission acts are identified , the Rector proceeds with the verification of such acts by a specific and proper investigation.

In this case, the verification procedure can end within the subsequent 30 days.

If these faults are not verified and cannot be rectified, the Rector does not approve the Commission acts and proceeds to appoint a new Commission.

Art. 17

Call of the selected applicant

Within 60 days from the date in which the acts are approved by the Rector, the Department proposes to the Board of Governors the call of the applicant/candidates selected by the Commission.

As for the selection procedure held to cover positions of the same Academic field (or Academic disciplines, when specified) ascribed to more than one Department, each Department proposes to the Board of Governors the "call" of a number of candidates which corresponds to the positions ascribed to each Department. If more than one candidate is "called" by more than one Department, the Department listed as first in order of preference upon application by the candidate will be allowed to propose the "call" of the candidate; in this case, the department not selected as first choice by the candidate, will be required to propose the "call" of another candidate/s selected by the Committee, if any.

Once the Departments propose the "call" of the applicant, they commit themselves, if necessary, to assign the candidates the year teaching tasks load, also in disciplines, for which it emerges their expertise, after an objective analysis of the Cv. These disciplines may not be included in the Field to which the candidates refer. Furthermore, the Departments commit themselves to ask the Rector to decide on the called candidates' teaching activity, if it is not possible to assign the complete teaching tasks load in the field of the candidates' course catalogues.

The corresponding proposal decision is adopted with positive vote of the absolute majority of the Permanent and Associate professors.

The Department decides to call or not the candidates selected by the Commission. Subsequently, the Board of Governors decides to approve or not the proposals of the Department within 4 months from the approval of the acts by the Rector.

If the Department does not take action, the Board of Governors decides on the "call" of the candidates selected by the Commission.

Art. 18
