

# LAVORI IN CORSO MANIFESTO

**RITORNO AL FUTURO**

## 2021-2023

**24-25-26  
May 2021**

## DIDACTICS AND EXAMS

### **DISTANCE LEARNING CAN REPLACE IN-CLASS LECTURES:**

Total return to in-class lectures, on-site workshops and registration available for part-time students and large courses. Establishment of a committee aimed at evaluating any exceptional situations that prevent the return to the Politecnico, and which can guarantee blended lessons for certain periods.

### **FIFTH EXAM SESSION:**

While waiting for the implementation of the extra exam session dedicated to students who have acquired all the attendances of the courses, we intend to continue to work intensively on this issue and we will try to propose the modification of the academic calendar in order to make this possible.

### **PROGRAM FOR ENTERPRISING STUDENTS:**

Investments for internships with large companies in the third year, project activity with team activities in the second year (eg design, production and marketing of a product).

### **RECORDED LESSONS:**

Maintaining current recording for the future, replacing old ones and introducing the possibility of downloading them. Selection of old registered courses to be made available to the entire population.

## SUSTAINABILITY

### **SUSTAINABLE MOBILITY:**

Activating agreements with major bikes, electric car and scooter companies.

### **DSA AND HANDICAP:**

Breaking down remaining architectural barriers and guarantee that services are actually inclusive and available for all students.

## EDISU E SPORT

### **CANTEEN FOR EVERYBODY AND NO QUEUE:**

A canteen nearby every branch of the PoliTo and encourage agreements with nearby establishments. Implementation of the service to reserve a place in the canteen or a takeaway meal.

### **RENT REFUND:**

Increase rent refund for students that are suitable but not beneficiaries of residences to cover all expenses.

### **UNIVERSIAD:**

Hosting the Universiade is a great opportunity for relationships and international visibility, building special residences, then redistributed to future EDISU students.

## TAXES

### **REWARDING STUDENT MERIT:**

Rewarding merit is the first form of recognition of the effort put into what we do, so when we talk about merit we don't limit ourselves only to the circle of "geniuses."

Last year this vision, partially recognized in the past by the Polytechnic, was strongly challenged. We fought hard to ensure that this did not cease to exist for Poli students.

### **PERCORSO INTRAPRENDENTI AND MERIT;**

### **BROTHER DISCOUNT.**

## SERVICES

### **DOCTOR FOR TRANSFER STUDENTS:**

Institution of the "Health book for transfer students of the Metropolitan City of Turin".

### **ENHANCED VLAIB:**

VLAIB rentention and strenghtening, in order to give access to PoliTo's computing power and to the installed softwares.

## SPACES

### **MORE SPACE, MORE TIME:**

Conversion of reduced capacity classrooms into study areas. Reserving, during the exam session, the M/N classrooms for evening study. Main campus also open on Saturday afternoon, with the availability of laibs and one of the internal bars. We request the extension of the libraries' opening hours, too.

### **INTERVENTIONS IN THE COURTYARDS:**

Wiring with electrical sockets and roofing of the courtyards with tables.

## INTERNATIONALIZATION

### **SINGLE COURSES PROVIDED BY OTHER UNIVERSITIES (UNITE):**

Possibility for Master's degree students to attend single courses provided by international universities to interface with European universities.

### **SIMPLIFY INFORMATION FOR OUTGOING STUDENTS:**

Introduction of a dedicated section in the personal page regarding opportunities in their own degree course.
