Art. 1

Number of posts – Professional profile

A public selection process, by examination, has been announced by the Polytechnic of Turin to fill a Technologist post according to art. 24 bis of law 240/2010 with a full time fixed term contract, for a duration of three years, at the Research fund Raising Division (Research Department) of this Polytechnic, to carry out technical and administrative functions within the scope of activities connected with implementing the project "Health, demographic change and wellbeing".

The figure will carry out its activities within the Research Fund Raising Division (Research Department) as the structure responsible for the implementation of the H2020@polito Project.

The Technologist will be entrusted with both technical and administrative support tasks in relation to the research carried out within the Project. The profile sought is a hybrid figure capable of covering operational and managerial roles, where a thorough understanding of the underlying technical subjects is required.

Job tasks will cover:

- analysis of Politecnico research groups' scientific expertise in the thematic field indicated
- in-depth analysis of the research programs launched at the international (mainly Horizon2020), national and regional level, and analysis of strategic research agendas in the thematic area of reference
- drafting of documents, mainly in English (e.g. contributions to position papers, projects' abstracts, etc.), with special regard to policies adopted and formalities required by the funding bodies
- support the participation to research funding programs and construction of public and private partnerships
- support in the study and elaboration phases of project ideas in line with the scientific topics contained in funding programs
- support in the drafting of project proposals in response to competitive calls (mainly Horizon2020) with a particular focus on coordinated projects in the thematic area of reference
- organization and management of events and meetings with stakeholders (public and private) at national and international level involved in the research field of the thematic area of reference
- monitoring of the planning, implementation and follow up of H2020@polito Project activities in the thematic area of reference.

This notice will be published on the Official Gazette of the Politecnico di Torino, on the website of the Polytechnic of Turin at www.swas.polito.it/services/concorsi/persta.asp, as well as on the site of the Ministry of Education, 'University and Research (MIUR), at <http://bandi.miur.it> and on the website of the European Union, at <http://ec.europa.eu/euraxess>.

Art. 2

Art. 4 Selection committee

The Selection Committee, appointed with a subsequent order of the General Manager, will be composed by experts on the subjects regarding the professionalism required, the type and scientific-disciplinary area of the research project, as well as the organisation and/or selection of staff.

Art. 5 Examinations

The examinations will involve a written test and an interview.

The Committee will decide on the duration of the same depending on the type of tests.

The **written test**: the test aims to examine knowledge acquired by the applicant in relation to the main national and international funding programs, to European research policies on "Health, demographic change and wellbeing" (SC1) and to the organization of Universities and Research centers. The specific knowledge on project design, on drafting of applications for funding and on

project management will be also be verified. Furthermore, competences in the specific thematic area will be checked, with particular attention to the analysis and the interpretation of Horizon 2020 thematic work programmes and the pre-screening of research proposals submitted by the University in response to competitive calls. The test will be focused on the verification of the analytical skills as well as the critical reflection aimed at problem solving. Finally, the ability to produce texts in English as well as the use of Windows programs (Word, Excel, Power Point, Access) will be assessed;

The **interview**: the interview, which will also be held in English, is aimed at deepening and developing the issues which constitute the subjects of the written test, giving particular attention to any work experience already acquired by candidates in this field, as resulting from their curricula.

During the course of the tests (in both tests or only during the written test or only during the interview), will also be verified the proper use of the most common IT equipment and applications.

The written test and the oral test shall be considered passed if the applicant has obtained a score of at least 7/10 or equivalent in each of them.

The overall vote is established by the sum of the vote for the written test and the vote attained in the interview.

The sessions of the Committee, during the interview, are public.

At the end of each session dedicated to the interview the Committee will draw up a list of the candidates examined with the indication of the vote attained by each and display it at the venue of the examination.

Art. 6

Calendar of examinations

The written test will take place on 15/09/2017 at 10,00 at LAIB 2 of this Polytechnic – Via Boggio, 59 – Turin.

The list of those admitted to the interview will be published on 10/10/2017 on the web page of the Polytechnic of Turin at the address www.swas.polito.it/services/concorsi.

The interview will be held on 05/10/2017 at 09.30 in Saletta B of the Rector's Office of this Polytechnic - C.so Duca degli Abruzzi, 24 - Turin.

Applicants are required to be on the premises at the time and on the days mentioned above to sit the examinations. They must be in possession of a valid identity document.

Art. 7

Formulation and approval of ranking

Having performed the tests for the selection process, the Committee draws up the merit ranking in descending order of the overall vote based on the results of the tests.

Applicants who have passed the final test and intend to exercise their preferential rights as set out at paragraph 4 of art. 5, Presidential Decree no. 487 dated 9.5.1994 (annex B) are required to show the relevant original documents, or authenticated copy thereof, within the deadline of 15

days. This term starts from the day following that on which individual applicants have passed the final test.

By Decree of the General Manager, the merit ranking will be approved and the successful candidates will be declared, on condition that it is verified that they are in possession of the requirements to be admitted to the job.

The final ranking will be published on the Administration web page at the address: www.swas.polito.it/services/concorsi.

Art. 8 Entering into the contract

A full time fixed-term employment contract for a duration of three years will be entered into with the candidate who is declared successful. A probationary period of work as Technologist is envisaged, with the right to the remuneration provided for by the rules in force for technical administrative staff for Category D, Economic Position D3.

The annual overall gross remuneration due to the employee is €28,019,67 which will be paid on a monthly basis.

The employment relationship is governed by the individual contract and by the employment provisions in force which also include the taxation, welfare and social security envisaged for employee income. As regards the rights and duties of the employee, reference is made to the principles established by the National Collective Labour Agreement - University Sector and to the regulations in force on public sector employment.

The candidate who has successfully completed the selection process is required to submit all documents which will be requested from this Polytechnic within thirty days from recruitment, under penalty of dismissal.

The probationary period will last for three months and cannot be renewed or extended. Once this period has been completed without termination of the employment relationship by one of the parties, the employees will be considered as being confirmed in service and their length of service will be calculated in every respect as of the day of recruitment.

Art 9 Referral to the performance of the selection process

For all that is not provided for in this selection process notification, reference shall be made to the rules laid down in the Regulation on the selection, recruitment and management process of the fixed-term employment relationship of the Technologists as set out in the introduction, and - as far as compatible - to the Regulation concerning the selection processes for recruiting permanent technical-administrative staff at the Polytechnic of Turin, issued with Regional Decree no. 339 dated 31/05/2002, and to the provisions in force on the procedures for public selection processes.
