

# STUDENT ELECTIONS - 12TH AND 13TH DECEMBER

## POLITECNICO CHANGES FOR REAL

### **PARTICIPATION**

- Collective discussion between students of every issue before its discussion inside the collegial organs. We want to encourage wide participation so as to define common positions related to specific issues
- Live/remote webcast streaming of all the meetings and writing of informal reports of meetings themselves

### **RIGHT TO STUDY**

- Abrogation of the "25 average" requirement, in order to let back in the ranking list the students unfairly excluded
- Wider access to the EDISU housing service. It is possible by revising the assignment criteria and increasing the efficiency of EDISU itself, lowering wastings and service outsourcing
- Institution of a system to monitor rent prices for students' houses and institution of a programme to assign Turin's unrented houses to students at low prices
- Canteen: Stop to the increasing prices students have to pay for food service. Adoption of "km0 concept" (farm-to-table) for food supplies, wider variety of meals (suitable for vegetarians also)

### **DIDACTICS**

- Re-model the barrier system and the exam and courses grounding, to make them closer to the students' learning needs, instead of being an obstacle for them.
- Institution of midterm exams or "esoneri" throughout every courses, in order to make more sustainable the study loan
- Creation of an annual coordination table between professors of every study courses to improve study programmes and avoid study contents' overlap
- Initiatives that can encourage and promote the application of students' skills into actual projects

### **FEES**

- Opposition to the propositions of fees' increasings
- Equal and fair taxation through the introduction of a "continuous contribution system" , through; a function which relates ones income to a personalized contribution level, without the need for bans.
- Fee reduction also available for out of terms' and part-time students

### **INTERNATIONALIZATION**

- English translation of all the Politecnico activities, to let everyone comprehend the reality we are part of
- Promotion of intercultural and international meetings inside the Politecnico in order to improve the integration of all the university communities
- Assessment of the efficiency of italian study courses so as to guarantee that foreign students have the adequate skills the attend italian courses

### **MOBILITY**

- Institution of the university mobility manager in order to monitor, plan and optimize all the transport modality of students and employees.
- Enhancement of bike sharing system through the installation of new stations nearby Politecnico sites and improving of private bikes' parkings (new or DIY built ranks to lower costs)
- Re-introduction of regional discount for public transport annual ticket and discounts also for suburban and rail services.

**ON 12TH and 13TH DECEMBER, VOTE FOR ALTER.POLIS**
